PAI 786 - Urban Policy

Professor Yinger

URBAN POLICY SUMMIT: TOPIC PREFERENCE FORM

Every student must participate in the urban policy summit. Please indicate your preferences for topics on the following form. Rank at least two topics, with a 1 indicating your most preferred topic. Note these topics are quite broad. If you are assigned to one of these topics, you can address any policy issue or issues you want in that category.

The class does not have to cover every topic at the summit; instead, the class will only cover topics that the students express interest in. If a large number of students select a particular broad topic, however, they will have to find a way to divide up the topic so that their policy proposals address different issues. If six students prefer to work on community economic development, for example, one group of three might work on training programs and another on financing.

Please download this form, fill it out, and give it to the professor by February 22.

Student Name: _____

Topic Rank

1.	Housing Problems and Housing Policy	
2.	Discrimination, Segregation, and Racial Transition	
3.	Urban Poverty and Welfare Programs	
4.	Community Economic Development
